

Giant Step Website and Family Photo Galleries

We are excited to announce that we have a website at **GiantStepCenter.com** created by Perfect Fit Web Design. One of the features we have is individual, password-protected photo galleries for each family. Here parents can see what their children are doing at Giant Step!

Parents have the option to complete this form so we can set up their family gallery.

Contact Information

Parent Name: _____

Child Name: _____

Email: _____

Phone: _____

Create a Web Address

http://giantstep.jalbum.net/_____

(Tip: use dashes or underscores instead of spaces. We prefer you not use your child's name. A nickname, miscellaneous word or number is fine. Ex: http://giantstep.jalbum.net/half_pint or <http://giantstep.jalbum.net/222>)

Password

_____ Please make this a unique password that is not used for other websites as this form will not be under strict security. No spaces please.

Photo Gallery Authorization

I, _____, parent of _____ understand that this photo gallery is under moderate security with a simple password and that the child's name will not be mentioned in captions anywhere on the page. This is not intended to be foolproof security, but simply a way to keep most internet users from viewing pictures of my child and discovering their name.

I agree not to hold Giant Step Preschool and Child Care liable if someone manages to bypass this level of security.
